

ALTA 1997 COPPER HYDROMETALLURGY FORUM

TABLE OF CONTENTS

Pilot Leach SX/EW Operation at the Sabetaung-Kyisintaung Copper Project, Union of Myanmar

By G Miller, P Hutchinson, R E Scheffel

Development of the Andacollo Copper Project

By R E Scheffel, J B Read

Kennecott's Bingham Canyon Heap Leach Program- Part 1: The Test Heap and SX/EW Pilot Plant

By B P Ream, W J Schlitt

Kennecott's Bingham Canyon Heap Leach Program- Part 2: The Column Leach Testwork

By W J Schlitt, B P Ream

Hydrometallurgical Treatment of Copper Concentrates: What are the "Real" Process Options?

By D Lunt, S Poulter, J Canterford

Design of Ultra-Fine Grinding Mills and Their Potential Application in Copper Hydrometallurgy

By K Liddell

Application of Filblast Process to Copper Leaching

By G Nguyen

Application of Vitrokele Technology for Treatment of Copper/Gold Ores

By M Patterson

Recent Developments at the Girilambone Heap Leach-SX/EW Operation

By D Walsh, T Lancaster, B James

Iron Control in Copper Electrowinning Streams Utilising Diphonix, A Selective Ion Exchange Resin

By D R Shaw, S Wallace, M J Gula, D Dreisinger

Minimising Tanhouse Electrolyte Bleed Streams

By S Poulter, B Ellis

Practical Aspects of Copper Solvent Extraction From Acid Leach Liquors

By D Readett, B Townson

High Efficiency Coalescers in SX Circuits – Novel Technology & Commercial Solutions

By J Sullivan, K McLoughlin, M Neuman, G Hellinx

Solvent Extraction Mixer-Settlers and Contactors: Developments and Trends

By M L Jansen, A Taylor

Chemical Iron Transfer Characteristics in Copper Solvent Extraction: Operating Experience at Girilambone Copper Co

By A Moroney, K Dudley

Mixing Technologies Influence in SX/EW Mixer Settler Systems: Past, Present and Future

By M A Giralico, T A Post, M C Greaves

Electrolytic Copper Electrowinning and Solvent Extraction World Operating Data

By T Robinson, W Davenport, J Jenkins
