

ALTA 1996 COPPER HYDROMETALLURGY FORUM

TABLE OF CONTENTS

The Great Australia Copper HL-SX-EW Project Concept, Delivery and Operations Startup

By Rob Thomson, C R (Sandy) Longworth

Emphasis on Feed End Settling in Outokumpu's Copper VSF Mixer-Settler

By Bror Nymor, Raimo Kuusisto, Petri Tailpale, Juhani Lyyra

Operational Results from Optimized Lightnin SX Pumper and Auxilliary Mixer Designs

By T A Post, M A Giralico, M C Greaves, G M Fraser

Reverse Flow Mixer Settlers

By Wayne R Hopkins

Hydrometallurgical Options for Treatment of Copper Sulphide Ores

By Alan Taylor

Heap Leaching of Low Grade Base Metal Ores from the White Range Region

By Michael J Gunn

Novel Technology for Separation of Organic From Aqueous Streams Using Fine Mesh Screens

By Misak Dzhragatspanyan, William A Greene

Practical Aspects of Heap Leaching

By David Readett and Graeme Miller

Cerro Colorado Bioleaching Experience

By Fernando Porcile, Cesar Otarola, Luis Veloso, Carlos A Garcia

Initial and Confirmatory Metallurgical Testwork-Mt Cuthbert Copper Project

By R Seville, N Draper, W Dicoski, S Wong

Copper and Cyprus Reunited

By Constantine Xydas

The Intec Copper Process Low Cost Treatment of Chalcopyrite

By Peter Everett

Solvent Extraction and Electrowinning of Copper at the Great Australia Mine Project

By Graham Pratt, Peter Shelley, Zimi Meka, Neil Meadows

Bacterial Oxidation of Low Grade Chalcopyrite Concentrates – Economic Considerations

By M Davis, A Ryan, R Leonard, A Taylor, H Fairley

The Continuous Improvement of the Isa Process

By R W Armstrong, M W Murphy, J D Land
