

CONTENTS

Treatment of Laterites

Evolution and Future of Rotary Kiln – Electric Furnace (RKEF) Plants For Smelting of Nickel Laterites

F. Stober, C. Walker, N. Voermann, M. Solar & B. Wasmund – Hatch Ltd - Canada

Extraction Of Nickel From Gördes Lateritic Ores With Atmospheric Leaching

E. Buyukakinci - META Nikel Kobalt Madencilik AS & YA Topkaya – Middle East Technical University – Turkey

Nickel Laterite Characterisation

N. Botsis & W. van Bronswijk – Curtin University & H. Watling – CSIRO Minerals - Australia

Canegrass Nickel-Cobalt Heap Leaching Project – An Emerging Nickel Producer

Iggy Tan – Nickelore Limited – Australia

Process Development

Norilsk Process Technology's Ammonia Recovery

Ryan Harrison – Norilsk Process Technology Pty Ltd - Australia

Effect of Nickel Compounds on Human Health

Hudson Bates – NiPERA – USA

Recent Developments In the High-Strength Chloride Leaching of Base Metal Sulphide Ores

Bryn Harris & Carl White - NeoFerric Technologies Inc. – Canada

Aspects of Modelling a Complex Chloride Leach Circuit: Starfield Resources' Ferguson Lake Project

Mike Dry - Arithmetek Inc. – Canada

Process Control and Simulation

A Lab in Your Laptop: OLI Simulation for Hydrometallurgy

Tim Newton – Simulus – Australia

Nickel Ore On Line Elemental Analysis: Main benefits and New Caledonia Operation Report

Vincent Flahaut – EDS Sodern – France

Improving Accuracy, Transparency and Audibility by Moving from Spreadsheets to an Integrated Metal Accounting Function

Colette Munro – Citect - Australia

Wise System A Walkthrough Interactive Simulated Environment for Control System Testing and Operator Training

James V Groutsch, Alvin Choi, Michelle & Elsa Hung – Meteng Pty Ltd - Australia

Cobalt production

Cobalt Market Review and Outlook

David Weight – Cobalt Development Institute - UK

Design Considerations For The Cobalt Recovery Circuit Of The Kol (Kov) Copper/Cobalt Refinery, DRC

KG Fisher – Bateman Minerals and Metals – South Africa & LG Treadgold – Consulting Metallurgist – USA

PAL Equipment and Materials

Pressure Acid Leach Flash Vessel Linings, A Status Report

Mark W. Martin – Koch Knight LLC – Australia

Autoclave Design Beyond Agitators – Slurry and Acid Lances

Bernie Gigas – Lightnin- USA & Mark Greaves - SPX Process Equipment – Australia

Innovation in Agitators Technology for Autoclave Applications

Franck Bénéfice & Wolfgang Keller – Ekato RMT GmbH – Germany & Morné Oosthuizen – Ekato Corp. - USA

Integral Design and Manufacture of Autoclaves for Hydrometallurgy

Honghai Xiao – Morimatsu Group – China

Mechanical Seals and Seals Support Systems for High Pressure Autoclaves

Detlev Huber - EKATO ESD – Germany

The Ultimate Solution to Coatings in Severe Service Ball Valves

Wojciech Zmudzinski, David Budge, Sean Collier & George Rea – Score (Pacific) Pty Ltd – Australia

Procedures at High Quality for Titanium Pressure Vessel

Takatoshi Kinoshita, Tanaka Takumi & Soshi Morita – Hitachi Plant Technologies Ltd - Japan

Reflections on Indirect Heating of Laterite Ore Slurries in HPAL Plants Using Self-Cleaning Fluidized Bed Heat Exchangers

DG Klaren & EF Boer – Klaren BV – Netherlands, & B. Crossley - Met Chem Consultants - Australia

Product Recovery

Nickel Electrowinning Tankhouse Developments at Anglo Platinum's Base Metal Refinery

LJ Bryson, NJ Graham, EP Bogosi, & DL Erasmus – Anglo Platinum – South Africa

The Production of Nickel Sulphate Heptahydrate From Refinery Solutions Using Evaporation and Crystallisation With Minimum Energy Requirements

DS Bradbury – Jord International – Australia

The Application of Molecular Recognition Technology (MRT) for Removal of Impurities from Cobalt Feed Streams in the Production of High Purity Cobalt & Cobalt Chemicals

Steven R. Izatt, Ronald L. Bruening, Neil E. Izatt, & John B. Dale– IBC Advanced Technologies – USA

Treatment of Sulphides

High Speed Nickel and Sulphide Ore Sorters using Electromagnetic Principles

Allison Allen & Hilton Gordon - UltraSort Pty Ltd - Australia

Metallurgical Development of the NorthMet Deposit of PolyMet Mining for Recovery of Copper, Nickel, Cobalt and Precious Metals

David Dreisinger & William Murray – Polymet Mining Company. - Canada

Recovery of Cobalt, Gold and Bismuth from Polymetallic Concentrates - NICO Deposit, NWT, Canada, Pilot Plant Results

A. Mezei, CA Fleming, M. Canizares, M. Ashbury, J. Brown, I. Todd, D. Imeson, & R. Jackman – SGS Mineral Services, RE Goad & M. Samuels – Fortune Minerals Limited, CJ Ferron, A. Hayden, R. Molnar & K. Konigsmann- Independent Consultants, & D. King, D. Marshall & E. Ngai – Aker Solutions - Canada

The Deswik Mill – A New Force in Fine Grinding

Stephen Massey - Deswik Mining Consultants - Australia

Commemorative Symposium: PAL 10 Years On from Cawse, Bulong and Murrin Murrin

Cawse: 10 Years On

Liam Franklyn & Sanjiv Manchanda – Norilsk Nickel - Australia

Gladstone Nickel Project – Benefiting from Regional Resources, Australian Infrastructure, Proven Technology and Chinese Project Implementation

GS Becker & PG Mason – Gladstone Pacific Nickel Ltd – Australia

Trends in PAL Downstream Recovery Options

Boyd Willis - Aker Solutions/Boyd Willis Consulting - Australia
